Timekeeping is affected by traffic congestion in Faro especially at rush hours. The buses make a circuit of Faro and they are not allowed sufficient time. The **1600 and 1720** buses from Faro to Albufeira are notorious in this respect (from personal experience) and are usually 15 - 20 minutes late by the time they get to Loulé. They are also VERY overcrowded on schooldays - you will literally have to fight your way on board at Loulé. You have been warned!

BUS STOPS IN LOULÉ

Loulé has a fun one-way traffic system and the buses stop at different places inbound and outbound. Because of traffic changes, buses from Albufeira no longer stop in the town centre (Av 25 de Abril) near the indoor market . On their way back to Albufeira they stop at the school "Prof. Carlos Ramos" which is about 100 metres from the Largo S. Francisco at the bottom end of town. Look for the sign "Escolas". The latter stop might save you a walk.
