Lagoa - Portimão complete service summary all routes

All buses leave from the Lagoa Bus Terminal but from any one of five different stops, depending on where they have come from! Fortunately they are close together, so just look for buses with either Portimão or Lagos on the front. Journey 10 – 15 minutes by non-stop buses; 25 - 30 minutes by others.

Buses in **ORANGE** type are non-stop between Lagoa and Portimão. Most local buses end in Av. Guarane in Portimão; most non-stop buses at Av Alfonso Henriques.

Local buses in black type stop in Estombar (6 minutes after Lagoa), Outside Slide n' Splash (8 minutes), Mexilhoeira Pequena (10 mins) and Parchal (15 mins) and note that on the way into Portimão the buses have to take a rather long route once over the bridge. This is because of the one-way traffic system but buses do stop at certain other places before reaching the terminus.
